

The Ministry of health (MISAU) continues to closely monitor the rapidly evolving developments surrounding the Coronavirus outbreak. The World Health Organization provides them with daily situational updates and continues to inform them should there be revisions in guidelines, we, in turn, are in constant contact with the relevant authorities and will ensure that we keep all of our exhibitors and partners informed of any risks or safety concerns should they arise.

We can also confirm that the Mozambican immigration authorities in conjunction with the Ministry of health (MISAU) have intensified screening at all ports of entry into Mozambique with a particular focus on our major airports of entry. This approach remains supported as air travellers introduce the vast majority of cases into territories outside of China. Additional staff has been deployed and have authorities have sought the assistance of medical staff from the National Defense Force to thoroughly intensify screening where additional capacity is needed.

Please be rest assured that the wellbeing of all those that are visiting Mozambique and staying with us at the Cardoso Hotel. At the Cardoso Hotel your wellbeing is a priority and of paramount importance that you have our commitment. All reasonable steps to promote and maintain safe and healthy conditions are in place.

Yours Sincerely,

HOTEL CARDOSO, S.A.R.L.
MAPUTO
